(Please tick one box)

**Q4. Please use this space to make any comments on the paragraph, policy, site or policies map you have identified in Q2:**

We are disappointed that none of our suggestions for renewable power generation and storage have been incorporated into the Local Plan. While there are generic Policies in the Plan that may apply, this large site with good connections to the power grid, provides an opportunity to generate solar power which could be stored in batteries and/or exported from the site. It appears symptomatic of the lack of any real intention to ensure that the Local Plan sets out to achieve net zero emissions.

*Please succinctly provide all evidence and supporting information necessary to support your response. Please continue on a separate sheet if necessary.*
