

<h2>Home Energy Check-up Information Sheet</h2>

No. 26	Home Battery Storage	Jan 2018

Home Battery Storage is not a new technology but as prices of Lithium Ion batteries come down it may for some households with P.V. it be a long term economic option.

The two guides mentioned below will help set the scene and maybe answer some of the questions.

Particular note should be made of any possible changes to the Feed In Tariff scheme and how those with Home Battery Storage might be affected.

Stretton Climate Care is not responsible for any of the guidance offered.

British Research Establishment (BRE) Home battery Storage guide for householders
