INFORMATION SHEET No. 21 DATE OF ISSUE October 2022

New Energy rating system for home appliances

When buying a home appliance, look out for the new labelling system. A = best G = worst. The label tells you how much energy the appliance uses and this includes electricity and water. This way appliances of a similar size can be compared for energy efficiency.

It is surprising how much energy some home appliances consume.

- Oven 2,000 - 2,250 w
- Deep fat fryer 1,200w
- Dishwasher 1,050w – 1,500w
- Electric fire 2,000w – 3,000w
